

## SENIOR BRIDGE ENGINEER / PROJECT MANAGER

Dokken Engineering is seeking to retain a talented, engaging, dare we say ingenious Senior Bridge Engineer to join our Structures Design Group! You will be an integral part of a fun team that delivers innovative engineering solutions for local, state, and federally funded projects. Our core focus is transportation: *bridges, roadways, highways and interchanges, bicycle and pedestrian paths, dams, and other public works facilities*. Dokken's current representative work includes projects with multiple structures, including individual bridge projects up to \$25 million in constructed value.

In this role, you will lead, manage, and perform tasks from concept to preliminary/final design through construction, including directing and/or performing simple to complex bridge analysis and design. You'll also supervise and mentor a team of 2 to 5 assistant and associate design engineers.

The entire state is at your disposal! Our firm and our in-house full-service team (Civil, Environmental, ROW, H&H) will fully support your aspirations of championing a bridge project you feel strongly about! We make decisions here – no multi-level, out of state decision makers to squash your motivation!

If you have 10+ years' experience in: bridge design and analysis, Caltrans type selection, design standards, special provisions, and estimating, etc., we need to talk! Let's talk about how you can create and implement your innovative engineering strategies to transportation challenges -- on projects in the community you live, regionally and throughout California.

### **Minimum Requirements:**

- Bachelor's Degree (BS) in civil engineering; Master's Degree (MS) is a plus
- Registration as a CA Professional Engineer (PE)
- 10+ years of experience in bridge design and engineering
- Demonstrated technical ability in design layout, type selection, design calculations, and preparation of structure special provisions to Caltrans' guidelines
- Excellent communicator with extensive experience in technical writing, oral presentations, and facilitation of client meetings

### **Preferred Qualifications and Skills:**

- Demonstrated ability in successful client and project management
- Experience in designing a variety of bridge types
- Proficient in AASHTO LRFD Bridge Design Specifications

**If you would like to be a part of our busy and fun group, email your resume, cover letter, and three references to [jobs@dokkenengineering.com](mailto:jobs@dokkenengineering.com). We can't wait to meet you!**

**FLSA Status:** Full-Time Exempt

**Compensation:** Competitive salary ranging from \$125,000 to \$160,000, commensurate with qualifications and experience

**Benefits:**

- Comprehensive health plan including:
  - Medical – Kaiser Permanente & Blue Shield of California (network includes UC Davis and Sutter Health)
    - HRA Options available to cover out of pocket medical expenses
  - Dental – Delta Dental of CA
  - Vision – VSP
  - Flexible Spending Account for health care and dependent care expenses
- 401(k) Profit Sharing Plan with generous, industry-leading employer match of 9%
- Participation in Employee Stock Ownership Plan
- Life, accidental death, and long-term disability insurance (Auto-enrollment and Voluntary options available)

**Introductory/Probationary Period:** At-Will Employment

**Location:** Folsom HQ office or San Diego office

**Date Posted:** 03/16/2021

**Reply By:** 04/14/2021

**Equal Opportunity Employer Statement:**

It is the policy of this Company to assure that applicants are employed, and that employees are treated during employment, without regard to their race, religion, sex, color, national origin, age, or disability. Such action shall include employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship, pre-apprenticeship, and/or on-the-job training.
