

# SENIOR BRIDGE ENGINEER / PROJECT MANAGER

Our Structures Design Group seeking a highly talented and motivated **Senior Bridge Engineer/Project Manager**. You will be an integral part of an A+ team that delivers innovative engineering solutions for local, state, and federally funded projects. **Our core focus is transportation:** bridges, roadways, highways and interchanges, bicycle and pedestrian paths, dams, and other public works facilities. Dokken's current representative work includes projects with multiple structures, including individual bridge projects up to \$40 million in constructed value.

In this role, you will lead, manage, and perform tasks from concept to preliminary/final design through construction, including directing and/or performing simple to complex bridge analysis and design. You will also supervise and mentor a team of 2 to 5 assistant and associate design engineers.

**The entire state is at your disposal!** Our firm and our in-house full-service team (Civil, Environmental, ROW, H&H) will fully support your aspirations of championing a bridge project you feel strongly about! We make decisions here – no multi-level, out of state decision makers to squash your motivation!

If you have 10+ years' experience in bridge design and analysis, Caltrans type selection, design standards, special provisions, and estimating, etc., we need to talk! Let's talk about how you can create and implement your innovative engineering strategies to transportation challenges - on projects in the community you live, regionally and throughout California.

## Primary Responsibilities:

- Responsible for client relationship management and business development. Lead the development and preparation of proposals and statement of qualifications
- Provide management of staff, and training and mentoring
- Review project financials and prepare project progress reports; ensure completion of work in accordance with contract provisions and perform other contract-related administration duties
- Responsible for leading the planning and design effort of transportation-related projects, including preliminary engineering studies, development of PS&Es, and construction administration
- Coordinate with internal disciplines, utility companies, subconsultants, and clients involved in projects
- Perform quality control review for projects at key submittal milestones.

## Requirements:

- Bachelor's Degree (BS) in civil engineering; Master's Degree (MS) is a plus
- Registration as a CA Professional Engineer (PE)
- 10+ years of experience in bridge design and engineering
- Demonstrated technical ability in design layout, type selection, design calculations, and preparation of structure special provisions to Caltrans' guidelines
- Excellent communicator with extensive experience in technical writing, oral presentations, and facilitation of client meetings

## Preferred Qualifications and Skills:

- Demonstrated ability in successful client and project management
- Experience in designing a variety of bridge types
- Proficient in AASHTO LRFD Bridge Design Specifications

**Compensation:** Competitive salary, commensurate with qualifications and experience

## Benefits:

- Paid holidays and PTO
- Comprehensive health plan including Medical (Kaiser Permanente and Blue Shield options); Dental (Delta Dental); Vision (VSP), and Flexible Spending Account for health care and dependent care expenses
- 401(k) Profit Sharing Plan with generous, industry-leading **employer match of 9%**
- Participation in Employee Stock Ownership Plan
- Life, accidental death, and long-term disability insurance (Auto-enrollment and Voluntary options available)

**FLSA Status:** Full-Time; Exempt | **Probationary Period:** 90 Days | Employment with Dokken is governed by the traditional legal principles of "at-will" employment, meaning either you or Dokken may end the employment relationship for any reason and without notice.

**Location:** Folsom, San Diego, and Redding

## Equal Opportunity Employer Statement:

It is the policy of this Company to assure that applicants are employed, and that employees are treated during employment, without regard to their race, religion, sex, color, national origin, age, or disability. Such action shall include employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship, pre-apprenticeship, and/or on-the-job training.
